Summary

DevOps and cloud engineer building and operating production infrastructure across AWS, GCP, Terraform, Ansible, and CI/CD. Delivered a government platform **inaugurated by the Prime Minister of India** (2,000+ launch-day visits) and production systems for 250+ law enforcement officers and 500+ SaaS users at **99%+ availability**. **3x AWS Certified** (Solutions Architect Associate, AI Practitioner, Cloud Practitioner), **CERT-In Hall of Fame** recipient, and holder of **Indian Patent IN 589608**.

Experience

Infobahn Technical Solutions (India)

Cloud Intern | On-site, Mumbai — May 2026 – Jul 2026

- **Rescued a production Aurora MySQL cluster mid-outage** – restored a stuck writer from snapshot to a fresh Aurora MySQL 3.x LTS cluster with **zero data loss**, then patched **AWS Network Firewall** stateless rule gaps blocking ALB-to-Keycloak and SSM traffic.
- Engineered **serverless FinOps automation** on **EventBridge and Lambda** that auto-stops idle RDS instances across the Landing Zone, and shipped weekly cost-attribution reports across **3 client AWS accounts** using an internal **agentic AI FinOps tool**.
- Evaluated **HPE Private Cloud AI (PCAI)** on the **NVIDIA AI Enterprise** stack (**NIM, NeMo**) for pre-sales, producing client briefing documents and decks on the HPE/NVIDIA reference architecture.
- **Deployed Single Node OpenShift (SNO)** on **bare-metal HPE ProLiant** via iLO virtual media, and stood up **Ansible Automation Platform (AAP) 2.6** containerized on EC2 with multi-node topologies.
- Established a **centralized Zabbix monitoring platform** for a managed-MSP architecture **scaling to nearly 1,000 agents** on Ubuntu EC2 (ap-south-1).

Government of Chhattisgarh

tffm.cg.gov.in

DevOps & Full-Stack Engineer Intern | Tribal Ministry | Hybrid, Raipur — Jul 2025 – Jan 2026

- Drove production readiness for a government platform inaugurated by the Prime Minister; configured Nginx reverse proxy and Linux environments across 6+ services, sustaining **2,000+ organic visits with zero launch-day incidents** across GCP and on-premise VMs.
- Streamlined GitHub Actions and Ansible CI/CD pipelines with layer-aware caching, **reducing build times to under 30 seconds**.
- Automated Flutter desktop release packaging with Inno Setup and self-hosted runners, **cutting manual deployment effort by 70%** for 250+ daily field tickets.

Projects

Crime Monitoring Platform | Chhattisgarh Police

Cloud Infrastructure | Oct 2025 – Present

- **Architected the full production stack** for a mission-critical **Chhattisgarh Police** crime-reporting platform used by **250+ officers** across **10 police stations and 5+ sub-divisions**, provisioned end-to-end with Terraform and Ansible (**zero click-ops**) across private-subnet-isolated Node.js and PostgreSQL RDS, a public ALB with ACM/TLS, and Secrets Manager.
- **Sustained 99%+ availability across 15 production releases** over 6 months with Prometheus, Grafana, and Loki observability, IAM least privilege, and incident runbooks, while **cutting compute cost 38%** via 1-year Reserved pricing.

Hackoverse Edu

Play Store

Cloud Native | EdTech | Jan 2026 – Present

- Designed AWS infrastructure from scratch with ECS Fargate, RDS, S3, CloudFront, ALB, Secrets Manager, ECR, EventBridge, and Lambda, provisioned entirely with Terraform and supporting **500+ active users** via Codemagic CI/CD.
- Cut page load from 10s to 500ms with CloudFront CDN caching (**20x faster**) and dropped ECS Fargate image build time from **180s to 28s** via Docker layer caching across 30+ releases.

Recognition & Patents

- **CERT-In Hall of Fame** | MeitY, Govt. of India (Jun 2025) — Critical authorization bypass, Mumbai Metro app, 30,000+ daily users
- **Indian Patent IN 589608** | Indian Patent Office (May 2026) — IoT attendance system, thousands of students marked in under 5 seconds
- **Winner** – CTFZone, IIIT Bhubaneswar (2025) **1st Runner Up** – E-Summit Hackathon, IIIT Naya Raipur (2025)

Education

B.Tech Computer Science and Engineering, IIIT Naya Raipur — 2024–2028 | CGPA: **8.34**

Vice Head, CipherCell – Blockchain bootcamp for 70+ participants, CTF organizer, SAC Award for technical excellence

Certifications

AWS Certified Solutions Architect – Associate (SAA-C03) | Jul 2026
AWS Certified AI Practitioner (AIF-C01) | Jul 2026 · **AWS Certified Cloud Practitioner (CLF-C02)** | Jul 2026

Skills

Cloud & AWS: AWS (ECS Fargate, EC2, RDS, S3, CloudFront, CloudWatch, IAM, EventBridge, Lambda, ECR, ALB, VPC, Amplify), GCP, Firebase, OpenShift, Kubernetes

IaC, CI/CD & DevOps: Terraform, Ansible, GitHub Actions, Codemagic, Docker, Nginx, Linux, Bash

Monitoring: Prometheus, Grafana, Loki, CloudWatch

Programming: Python, Go, Next.js, Node.js, React, Flutter, PostgreSQL
